Mr. Messina,

My name is Lonnie Jaycox and I am on the executive committee of the IoPP Chemical Packaging Committee.

This is an industry organization that meets in the Washington DC area (Alexandria) every fall to discuss issues of importance to the chemical packaging community.

This is a technical committee of IoPP and is not a lobbying organization. We exist solely to enhance the technical capabilities of packaging engineers in the chemical industry in technical and regulatory aspects of our jobs.

Website here:

During the pandemic we were incapable of meeting in person.

However, our fall meeting is on for September 20-22 at the Holiday Inn Hotel and Suites, Old Town Alexandria.

I am the committee chair that is tasked with bringing in SMEs to address pertinent topics.

The committee would like to have a speaker who could address the current understanding of the situation regarding PFAS content in packaging and the use of fluorination treatment as a barrier to non-polar solvents in industrial packagings.

Is there a speaker from US EPA who could provide an update to our committee during our meeting?

Thank you for your time,

Lonnie Jaycox
